

**MIXED CONSTRUCTION & DEMOLITION
ACCEPTANCE POLICY**
SOUTHERN IDAHO SOLID WASTE
PO Box 159 Burley, ID 83318
(208)432-9082
WWW.SISW.ORG

FAILURE TO COMPLETE ALL REQUIREMENTS MAY RESULT IN LOAD REFUSAL

Southern Idaho Solid Waste (SISW) accepts Mixed Construction and Demolition debris at several locations. SISW defines Mixed Construction Demolition as the following:

Mixed C&D-“Waste that is a result of construction, demolition, or land-clearing activities which contains any material likely to produce gases, leachate, or litter during its decomposition process.”

Mixed C&D includes but is not limited to waste that contains the following:

- Any material that is likely to produce gases, leachate or litter during its decomposition process
- Household Items
- Grass Clippings
- Furniture and Carpet
- Material coated with heavy metal paint
- Municipal Solid Waste (MSW)

SISW will accept 50 cubic yards per day/ per customer at the following locations:

- Twin Falls Transfer Station
- Ohio Gulch Transfer Station
- Jerome Transfer Station
- Minidoka Transfer Station
- Buhl Transfer Station
- Wendell Transfer Station
- Shoshone Transfer Station
- Carey Transfer Station

SISW will accept projects exceeding 50 cubic yards per day/per customer at the following locations:

- Milner Butte Landfill

***Notification is required for ANY projects exceeding 50 yards per day/per customer.**

To encourage separation of inert materials from mixed C&D waste, customers may dispose of inert waste for a lower fee. For more information about disposal of inert waste please see our Inert Waste Acceptance Policy.

Thank you for your cooperation. For additional information, please contact SISW at (208) 432-9082.
